

# DIGITAL LEARNING

## (Internet, Social Media and Digital Devices)

### POLICY

#### RATIONALE

The internet, combined with the school's mobile devices program, offers huge potential benefits for teaching and learning. It offers wonderful opportunities for students and teachers to contribute to the world community on the web. Blogs, social networking spaces such as Facebook and instant messaging tools such as Skype are now part of students' and staff's lives on the web.

Students and staff can:

- o explore the world online
- o visit museums and libraries around the world
- o access rich information resources to support research and investigations
- o communicate and collaborate with people all over the world
- o publish to the web

The principles of safety and responsibility are not specific to the web but certainly apply to the use of the internet at school. Just as in the real world, the virtual world of the internet involves some risks. Our school has developed proactive strategies that help to minimise these risks to our students.

#### PURPOSE

To ensure that all students and members of our school community understand:

- our commitment to providing students with the opportunity to benefit from digital technologies to support and enhance learning and development at school including.
- expected student behaviour when using digital technologies including the internet, social media, and digital devices (including computers, laptops, and tablets)
- the school's commitment to promoting safe, responsible and discerning use of digital technologies, and educating students on appropriate responses to any dangers or threats to wellbeing that they may encounter when using the internet and digital technologies
- our school's policies and procedures for responding to inappropriate student behaviour on digital technologies and the internet
- the various Department policies on digital learning, including social media, that our school follows and implements when using digital technology
- our school prioritises the safety of students whilst they are using digital technologies

#### SCOPE

This policy applies to all students and staff at Karingal Primary School.

Staff use of technology is also governed by the following Department policies:

- [Acceptable Use Policy for ICT Resources](#)
- [Cybersafety and Responsible Use of Digital Technologies](#)
- [Digital Learning in Schools](#) and
- [Social Media Use to Support Student Learning](#).

Staff, volunteers and school councillors also need to adhere to codes of conduct relevant to their respective roles. These codes include:

- Karingal Primary School's Child Safety Code of Conduct
- [The Victorian Teaching Profession Code of Conduct](#) (teaching staff)
- [Code of Conduct for Victorian Sector Employees](#) (staff)
- [Code of Conduct for Directors of Victorian Public Entities](#) (school councillors)

## DEFINITIONS

For the purpose of this policy, "digital technologies" are defined as digital devices, tools, applications and systems that students and teachers use for learning and teaching; this includes Department-provided software and locally sourced devices, tools and systems.

## POLICY

### **Vision for digital learning at our school**

The use of digital technologies is a mandated component of the Victorian Curriculum F-10.

Safe and appropriate use of digital technologies, including the internet, apps, computers and tablets, can provide students with rich opportunities to support learning and development in a range of ways.

Through increased access to digital technologies, students can benefit from learning that is interactive, collaborative, personalised, engaging and transformative. Digital technologies enable our students to interact with and create high-quality content, resources and tools. It also enables personalised learning tailored to students' particular needs and interests and transforms assessment, reporting and feedback, driving new forms of collaboration and communication.

Karingal Primary School believes that the use of digital technologies at school allows the development of valuable skills and knowledge and prepares students to thrive in our globalised and inter-connected world. Our school's vision is to empower students to use digital technologies safely and appropriately to reach their personal best and fully equip them to contribute positively to society as happy, healthy young adults.

### **Safe and appropriate use of digital technologies**

Digital technologies, if not used appropriately, may present risks to users' safety or wellbeing. At Karingal Primary School, we are committed to educating all students to use digital technologies safely, equipping students with the skills and knowledge to navigate the digital world.

At Karingal Primary School, we:

- use online sites and digital tools that support students' learning, and focus our use of digital technologies on being learning-centred
- use digital technologies in the classroom for a specific purpose with targeted educational or developmental aims
- supervise and support students using digital technologies for their schoolwork
- effectively and responsively address any issues or incidents that have the potential to impact on the well-being of our students
- have programs in place to educate our students to be safe, responsible and discerning users of digital technologies, including eSmart
- educate our students about digital issues such as privacy, intellectual property and copyright, and the importance of maintaining their own privacy and security online

- actively educate and remind students of our *Student Engagement* policy that outlines our School's values and expected student behaviour, including online behaviours
- have an Acceptable Use Agreement outlining the expectations of students when using digital technologies for their schoolwork
- use clear protocols and procedures to protect students working in online spaces, which includes reviewing the safety and appropriateness of online tools and communities and removing offensive content at the earliest opportunity
- educate our students on appropriate responses to any dangers or threats to wellbeing that they may encounter when using the internet and other digital technologies
- provide a filtered internet service at school to block access to inappropriate content
- refer suspected illegal online acts to the relevant law enforcement authority for investigation
- support parents and carers to understand the safe and responsible use of digital technologies and the strategies that can be implemented at home through regular updates in our newsletter, information sheets, website/school portal and information sessions.
- Use the eSmart Digital Licence education program that is regularly updated and teaches children about the current and changing online risks, as well as how to best manage them

Distribution of school-owned devices to students and personal student use of digital technologies at school will only be permitted where students and their parents/carers have completed a signed Acceptable Use Agreement.

It is the responsibility of all students to protect their own password and not divulge it to another person. If a student or staff member knows or suspects an account has been used by another person, the account holder must notify the classroom teacher immediately.

All messages created, sent or retrieved on the school's network are the property of the school. The school reserves the right to access and monitor all messages and files on the computer system, as necessary and appropriate. Communications including text and images may be required to be disclosed to law enforcement and other third parties without the consent of the sender.

Information on supervision arrangements for students engaging in digital learning activities is available in our Yard Duty and Supervision Policy.

### **Social media use**

Our school follows the Department's policy on [Social Media Use to Support Learning](#) to ensure social media is used safely and appropriately in student learning and to ensure appropriate parent notification occurs or, where required, consent is sought. Where the student activity is visible to the public, it requires consent.

Our school has established a Facebook page for students to showcase our school, where parents can provide appropriate feedback and comments relating to our school. Parents are welcome to contact Samantha Cooke if they have any questions or concerns about this forum.

In accordance with the Department's policy on social media, staff will not 'friend' or 'follow' a student on a personal social media account, or accept a 'friend' request from a student using a personal social media account unless it is objectively appropriate, for example where the student is also a family member of the staff.

If a staff member of our school becomes aware that a student at the school is 'following' them on a personal social media account, Department policy requires the staff member to ask the student to 'unfollow' them, and to notify the school and/or parent or carer if the student does not do so.

### **Student behavioural expectations**

When using digital technologies, students are expected to behave in a way that is consistent with Karingal Primary School's *Statement of Values, Student Wellbeing and Engagement Policy*, and *Bullying Prevention* policy.

When a student acts in breach of the behaviour standards of our school community (including cyberbullying, using digital technologies to harass, threaten or intimidate, or viewing/posting/sharing of inappropriate or unlawful content), Karingal Primary School will institute a staged response, consistent with our student engagement and behaviour policies.

Breaches of this policy by students can result in several consequences which will depend on the severity of the breach and the context of the situation. This includes:

- removal of network access privileges
- removal of email privileges
- removal of internet access privileges
- removal of printing privileges
- other consequences as outlined in the school's *Student Wellbeing and Engagement* and *Bullying Prevention* policies.

## COMMUNICATION

This policy will be communicated to our school community in the following ways:

- Available publicly on our school's website
- Included in staff induction and child safety training processes
- Discussed at parent information nights/sessions
- Included in transition and enrolment packs
- Made available in hard copy from the school administration upon request

## POLICY REVIEW AND APPROVAL

Policy last reviewed	August 2022
Ratified by School Council	August 2022
Approved by	Principal and School Council
Next scheduled review date	August 2024

## ANNEXURE A: ACCEPTABLE USE AGREEMENT

### Acceptable Use Agreement

When I use digital technologies I **communicate respectfully** by:

- always thinking and checking that what I write or post is polite and respectful
- being kind to my friends and classmates and thinking about how they might think or feel about the things I do or say online
- working to stop bullying. I don't send mean or bullying messages or pass them on to others.
- creating and presenting my own work and if I do copy something from the internet, letting others know by sharing the website link to acknowledge.

When I use digital technologies I **protect personal information** by being aware that my full name, photo, birthday, address and phone number are personal information and are not to be shared online. This means I:

- protect my friends' information in the same way
- protect my passwords and don't share them with anyone except my parent/carers/guardians/teachers
- only ever join spaces with my parents/carers/guardians or teacher's guidance and permission
- never answer questions online that ask for my personal information without permission from my parents/carers/guardians or teacher's
- know not to post three or more pieces of identifiable information about myself (that can identify me)

When I use digital technologies I **respect myself and others** by thinking about what I share online. This means I:

- stop to think about what I post or share online
- use spaces or sites that are appropriate for me and my age, and if I am not sure I ask a trusted adult for help
- protect my friends' full names, birthdays, school names, addresses and phone numbers because this is their personal information
- speak to a trusted adult if I see something that makes me feel upset or if I need help
- speak to a trusted adult if someone is unkind to me or if I know someone else is upset or scared
- don't deliberately search for something that I know is illegal, rude or violent
- turn off or close the screen if I see something I don't like and tell a trusted adult
- am careful with the equipment I use.

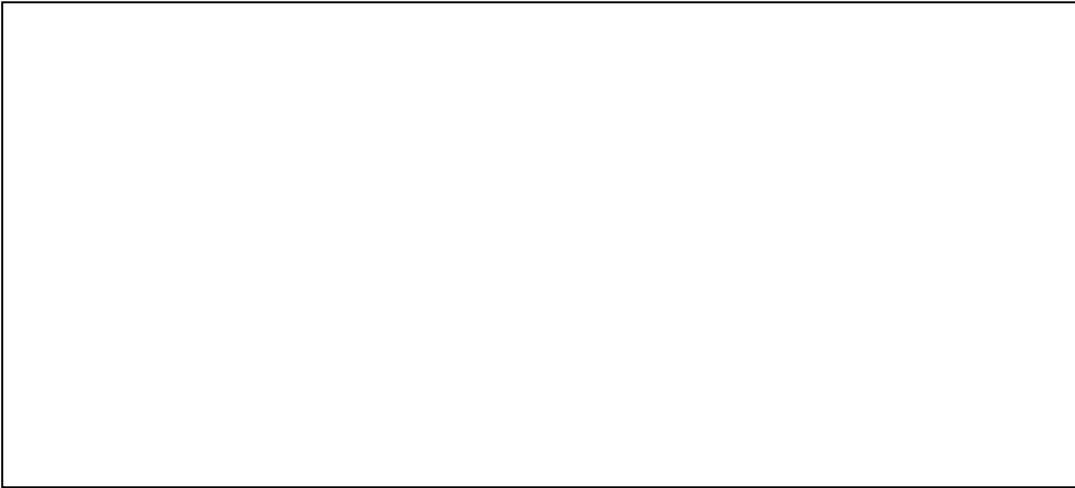

When I use digital technologies and the internet I **respect my learning and the learning of others**. This means I:

- Work hard, only on the task I've been given
- Help others, but do not do their work for them.
- Move around the equipment safely
- Don't alter the equipment without my teacher's approval.
- Follow the teacher's directions/instructions.

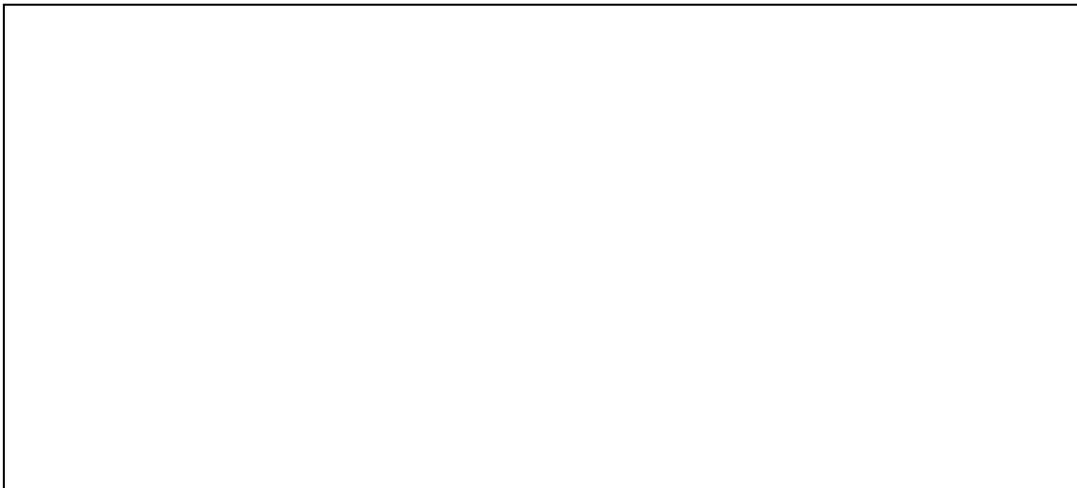

When I use school computers/laptops/XO's I **respect and protect the way Karingal Primary School prefers them set up**. This means I:

- don't modify the computers
- leave the Apps on the front screen of the XO's the way that they are on set up
- only use the provided wallpapers, and
- follow the teacher's instructions/directions

When I use digital technologies and the internet I **communicate respectfully**. This means I:

When I use digital technologies and the internet, I **protect personal information**. This means I:

When I use digital technologies and the internet, I **respect myself and others**. This means I:

When I use digital technologies and the internet, I **respect our learning**. This means I:

I understand that I need to comply with the terms of acceptable use and expected standards of behaviour set out within this Agreement.

I understand that there are actions and consequences established if I do not behave appropriately.
