

PIG

ASTRO
MOULT

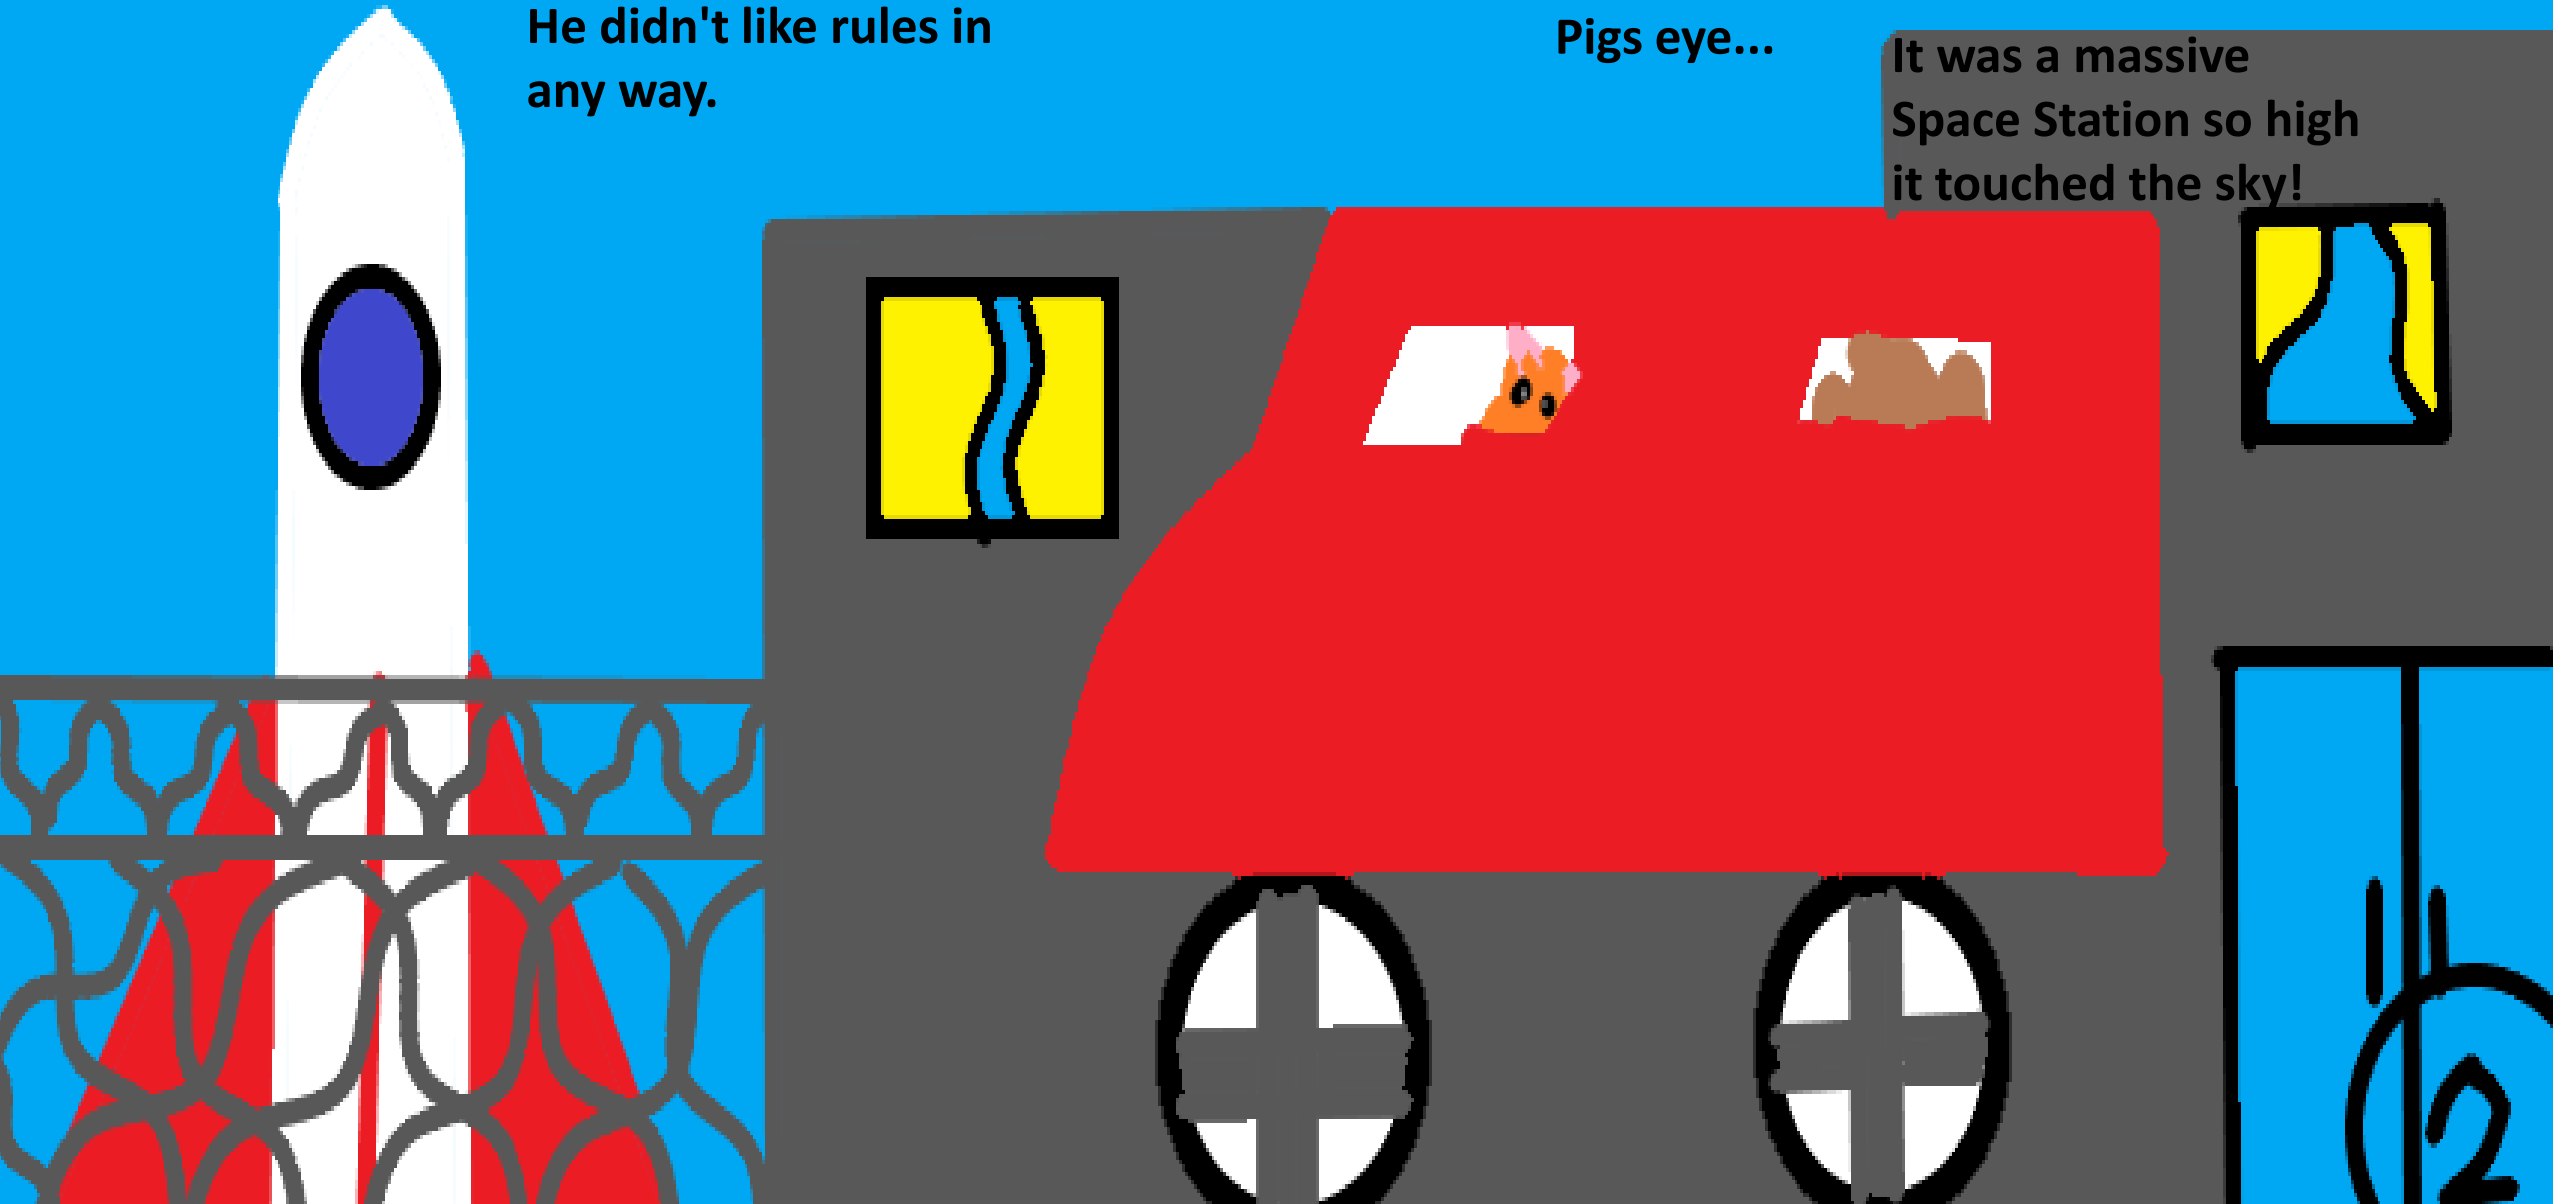

THE

Pig was a Pug and I'm
sorry to say...

He didn't like rules in
any way.

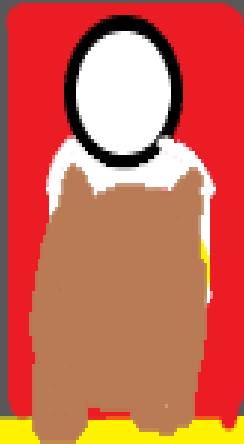

The dogs were on a
road trip when
something caught
Pigs eye...

It was a massive
Space Station so high
it touched the sky!

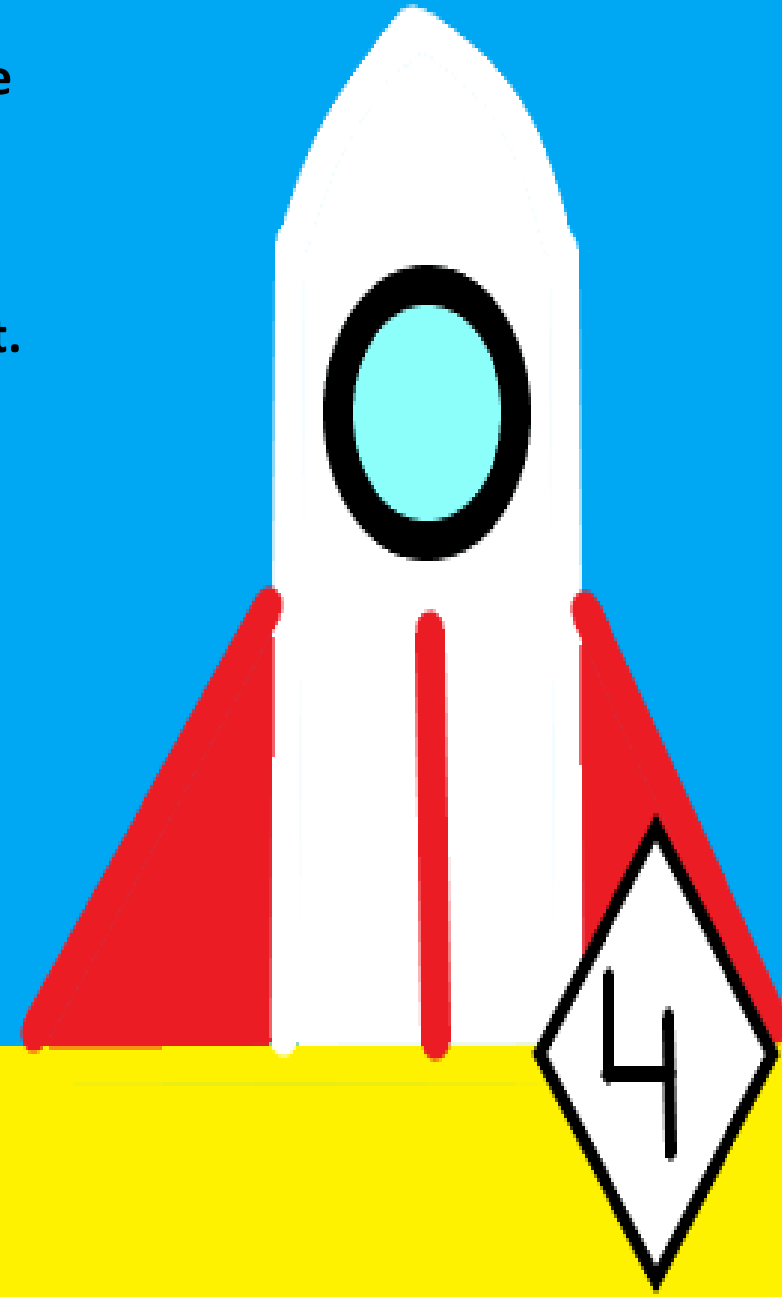

Pig ran through the gates and found a space suit..

He put them on as well as space boots.

Pig suddenly jumped out and ran towards the ship...

A sign said
"Do not enter"
but Pig didn't quit.

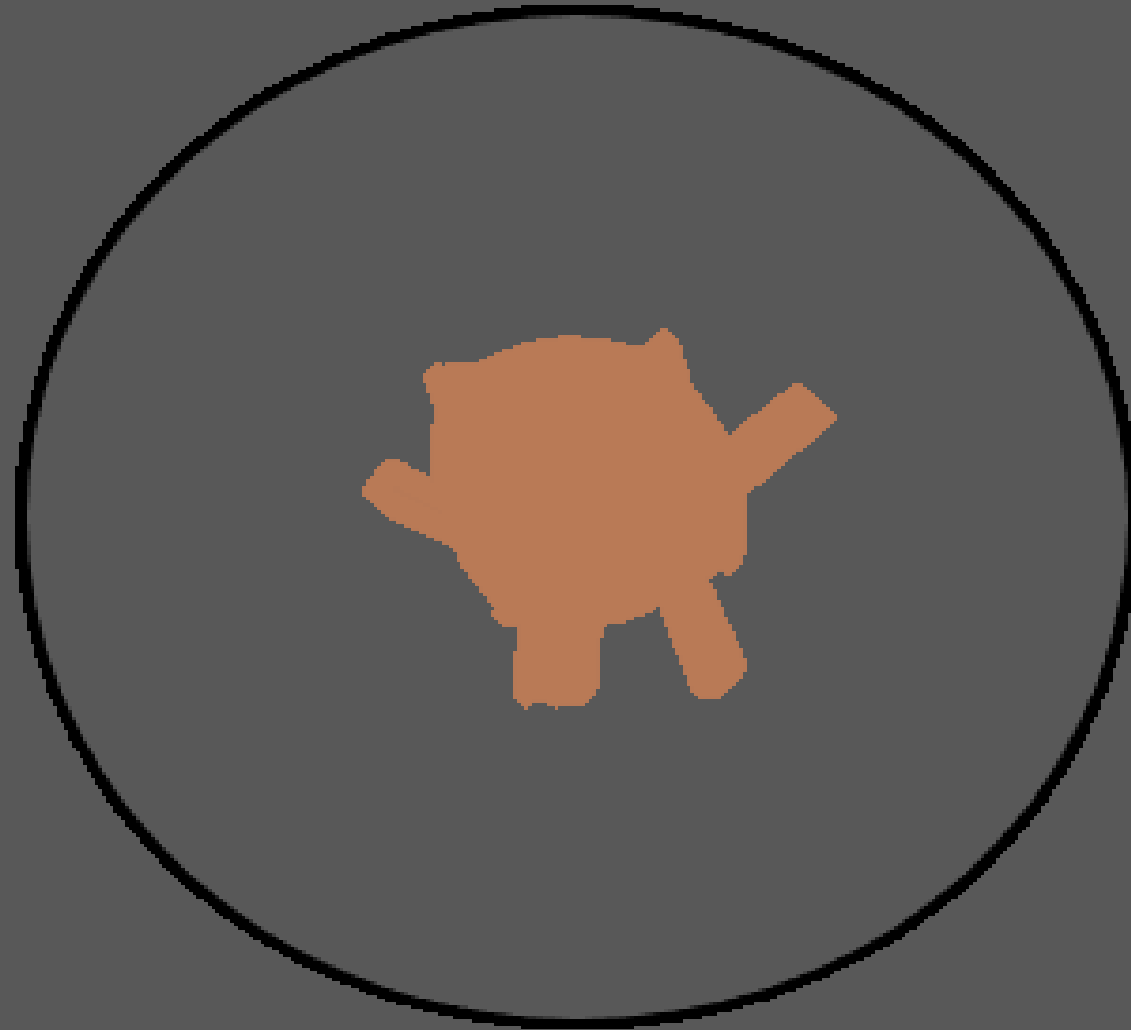

He ran into the
ship as it blasted
to the Moon...

There's no
turning back
now they left
too soon.

Pig got excited so he
went to explore...
Somehow he got lost
and found an alien
door.

The Aliens weren't friendly, they were big earthling haters...

So Pig ran away and fell into a crater.

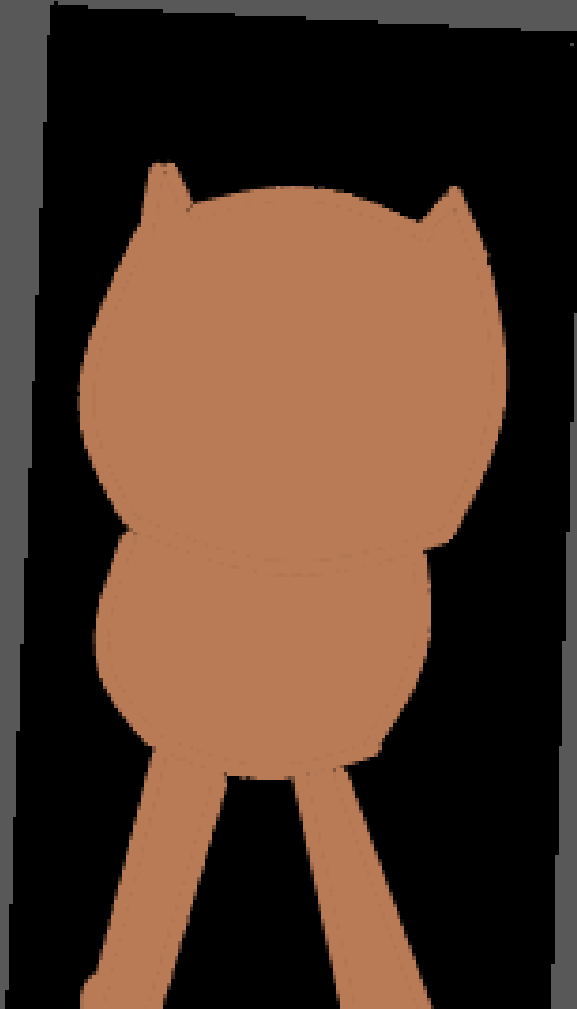

Pig was still lost and he was crying of fear...

But in the corner of his eye something appeared.

Pig found a tunnel so he went inside...

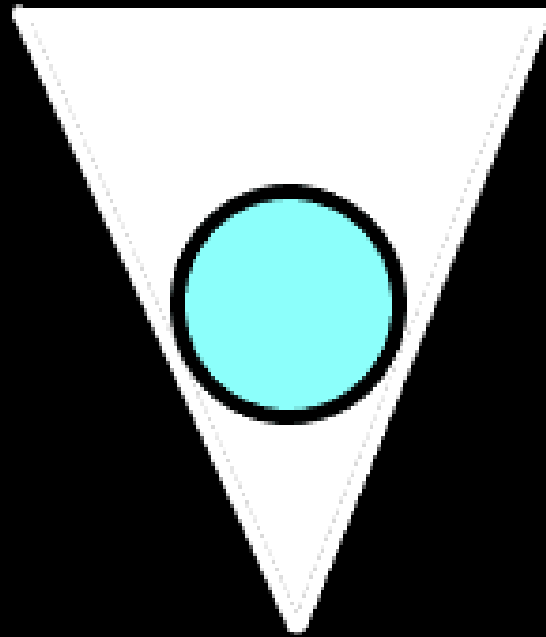

Hoping he'd find the space ship on the other side.

At the end of the tunnel Pig couldn't believe his eyes...

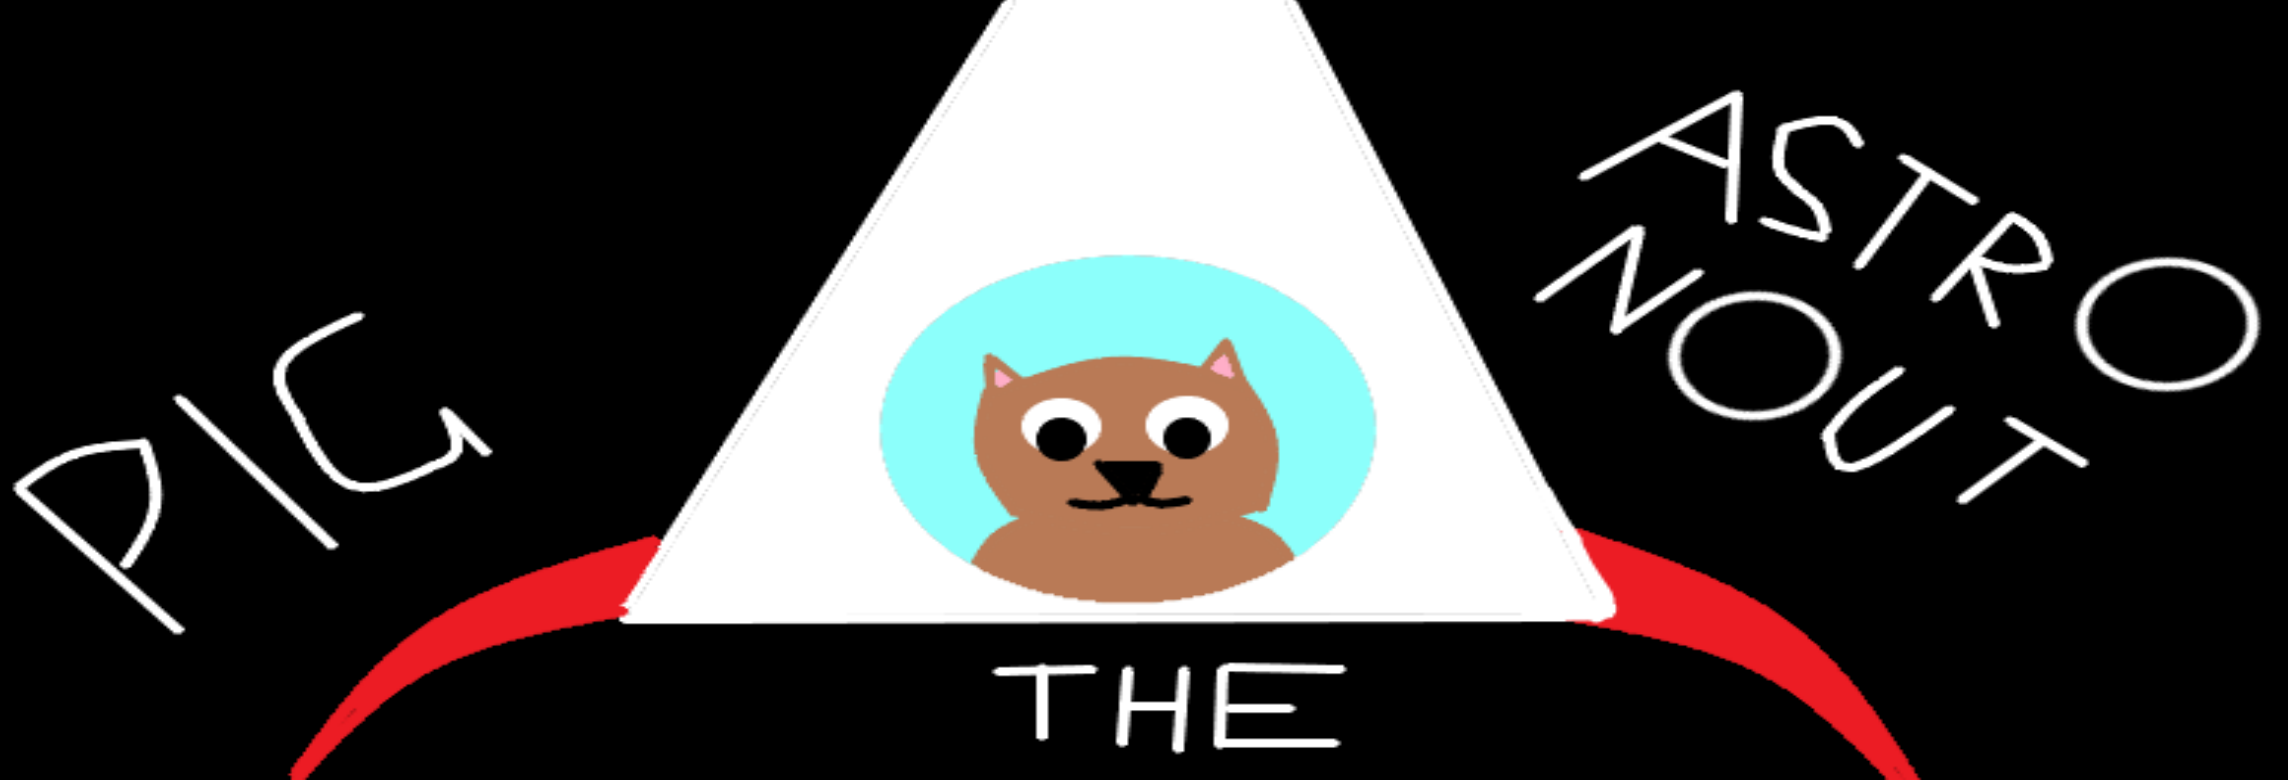

It was the spaceship with his space friend inside!

**Pig was so happy he
jumped straight in...**

**The spaceship flew back
to earth and it was a
great win!**

The naughtiest pug goes on an adventure of a lifetime!!

Pig the Pug breaks the rules and ends up going on a WILD ride into space! Find out what crazy and outrageous things Pig finds on the moon!! Will Pig make it back to Earth??

Pig the Pug has a big lesson to learn...
